Subject: Form 471 Waiver Request for time
Application #: 822062
Entity #: 145623
FCC reg #: 0013709019

Yakutat School District (YSD) would like to request an extension to file form 471. Unfortunately YSD was not able to file form 471 on a timely manner due to unforeseen circumstances. YSD recently had a change in the Business Manager position; the new business manager came into the job with minimum experience and no training from the previous business manager. Due to how this transition unfolded, the YSD believes that this was an unforeseen circumstance that will help to prepare for the future and will not repeat itself.

YSD would like share its appreciation on this matter as we are a relatively small school district and the loss or stoppage of these funding will severely have a negative effect on the daily operations of our school district and thus, would cripple our ability to provide the appropriate information and communications needs for the students and teachers.

Sincerely,

Ricardo Tejeda
